I. Introduction and Summary

Department of Transportation Highways (DOTH) manages the planning, construction, and maintenance of the State of Hawaii's approximate 2,675 lane miles of highway on Oahu, Kauai, Maui, Lanai, Molokai, and Hawaii. DOTH's mission is to provide a safe, efficient and accessible highway system through the utilization of available resources in the maintenance, enhancement and support of land transportation facilities. DOTH's primary function is to plan, design, and supervise the construction and maintenance of the State's highway system.

DOTH commissioned an Enterprise Resource Planning (ERP) Contractor, LSI in March 2021 to provide an accounting system solution that would modernize certain State of Hawaii, Department of Transportation, Highways Division (DOTH) IT systems, associated systems and business processes, including fully replacing DOTH's legacy Highways Financial Accounting System (HWYAC) and certain software components of DOTH Districts' AS400 systems.

DOTH also acquired a contract with IT Management Consulting Firm, Ohanasoft, to provide information technology independent verification and validation consulting services for the implementation of the DOTH Highways Financial Management System. The IV&V contractor's role is to provide an objective, neutral, third-party view of the implementation of the Highways Financial Management System with the intent of protecting the State's interests for success of the project. Throughout the system implementation, the IV&V team will perform ongoing project IV&V activities and will identify issues/deficiencies/risks with the System implementation project, provide feedback and recommendations for mitigation and improvement, and provide on-going reporting on project activities.

A Monthly Project Assessment IV&V Report of September 2021 was submitted on 10/13/2021 for implementation team's review. The Monthly Project Assessment IV&V Report is to document and monitor IV&V observations, risks, issues, achievements for the month, deliverables to review for the month, as well as the next period activities, and to share overall project status with the project stakeholders and the implementation team. The DOTH FMS Project continued the Explore Phase which is to validate the DOTH's business processes and focus on Fit/Gap Analysis to the SAP solution. The Explore Phase started on 6/01/2021 and was expected to be completed on 9/30/2021, however it was extended to 10/31/2021 as more workshops were needed to discuss workflows and requirements. There have been more than 40 workshops held to discuss and review As-Is, To-Be, SAP functions, solutions, and DOTH requirements in September 2021. There have also been changes in LSI resources i.e. the replacement LSI FHWA billing consultant is identified, and the new assistant project manager is on board as of this report date. Many deliverables are still outstanding that puts pressure on the project schedule. These include deliverables planned during the current Explore phase and also deliverables that were postponed from the Prepare phase to the current Explore phase. Core critical requirements need more attention, however they are not receiving as much attention as other areas that are not considered core critical requirements. Inventory, Plant Maintenance and Payroll need more discussion and decision making on the implementation scope.

III. IV&V Findings – Observations, Risk, Issue and Feedback/Mitigation

A. Subject Category: Schedule Management

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation	
Observation	
<p>ORI ID: O-210902-01 There were few or no meetings occurred on Fridays despite Friday is still a workday for DOTH.</p>	
Feedback/Mitigation/Updates	
<p>Fridays could be utilized for meetings and discussions. 9/30/2021: There have been occasional meetings on Fridays.</p>	

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation	
Issue	Impact
<p>ORI ID: I-210531-02 The final Project Plan/Implementation Schedule has not been approved by DOTH and the deliverable is not completed. This is a foundational document for a project management and scheduling, and it is one of the most critical deliverables. Delay in the Project Plan and Implementation Schedule pose decreased confidence in being able to manage project resources efficiently and meet the final Go-Live date. Also, without the Project Plan and the Implementation Schedule DOTH has limited project visibility and it will impact schedule and resource management. It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e., one consultant or DOTH team member working more than 40 hours in a week, etc.)</p>	
Feedback/Mitigation/ Updates	
<p>It is recommended that LSI complete Project Plan/Implementation Schedule as soon as possible. Project Plan/Implementation Schedule Submission History: 11/16/2020: The initial project plan was submitted and returned back to LSI after DOTH review due to incompleteness. 12/21/2020: Updated project plan was submitted by LSI but returned back to LSI after DOTH review due to incompleteness. 04/26/2021: Updated project plan was submitted by LSI but returned back to LSI after DOTH review due to incompleteness. 06/14/2021: Updated project plan was submitted by LSI but returned back to LSI after DOTH review due to incompleteness. 7/1/2021: Updated project plan was submitted by LSI but returned back to LSI after DOTH review due to incompleteness. 8/4/2021: Updated project plan was submitted by LSI but DOTH requested a revision. 9/02/2021: No updates have been submitted to DOTH. Revised Acceptance Date: 9/30/2021. 9/16/2021: DOTH interviewed an assistant project manager candidate on 9/7/2021. 9/30/2021: No updates have been submitted to DOTH.</p>

C. Subject Category: Requirement Management (Processes, Requirements and Fit/Gap)

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation**Observation****ORI ID: O-210729-01**

Some requirements may be directly or indirectly related to Inventory, Payroll, and Plant Maintenance modules. However, many typical core requirements of these modules (Inventory, Payroll, and Plant Maintenance) were not included in the scope of DOTR RFP requirements.

Feedback/Mitigation/Updates

It is recommended that DOTR discuss with LSI and determine the implementation scope of Inventory, Payroll and Plant Maintenance modules for 7/1/2022 Go-Live.

9/2/2021: The implementation scope of Inventory, Payroll, and Plant Maintenance aren't finalized. DOTR and LSI need to make a decision on which functions/features will be implemented to meet DOTR requirements.

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210811-01

New requirements are discussed in various explore workshops including Inventory, Plant Maintenance, HR, Grant Management, and payroll modules.

Feedback/Mitigation/Updates

Any new requirements discussed during the explore workshops should be documented and included in the Requirement Traceability Matrix.

If DOTH and LSI decides to implement full blown Inventory, Plant Maintenance, HR, Grants Management and Payroll modules, DOTH should establish sets of requirements first before establishing requirements through ad hoc discussions.

9/30/2021: Functions and features of SAP that are not directly related to DOTH's RFP requirements are reviewed and discussed in the following business areas: Inventory, Plant Maintenance, HR, Grants Management, and Payroll. Implementation scopes need to be discussed and determined as soon as possible.

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210811-02

The main goal of the DOTH FMS project is to implement a new financial management system in compliance with FHWA and the state of Hawaii, DAGS/B&F, and replace the obsolete current mainframe system HWYAC. The Go-Live is set to 7/1/2022, which is a very aggressive plan, and the project team needs to prioritize and focus on must-have requirements.

Feedback/Mitigation/Updates

N/A
 9/30/2021: Progress is being made with discussions revolving around core critical requirements, however there are still elements of core critical requirements that need prioritized attention and further discussion about how they will be implemented in SAP.

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210826-02

A high-level solution design is being developed before all of DOTH requirements are reviewed.

Feedback/Mitigation/Updates

It is recommended that LSI complete a thorough analysis of DOTH requirements with DOTH SMEs, ensure that consultants understand the DOTH requirements, and seek out additional clarification and explanation from DOTH as needed.
 9/30/2021: Progress is made with requirements review and the activities to understand the requirements should be continued.

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210916-01

Playback sessions are conducted by each module only and DOTH is having a difficult time understanding the full continuous process cycle in SAP.

Feedback/Mitigation/Updates

DOTH would like to review and validate how SAP processes the entire DOTH business cycle such as PR, PO, Invoice, Payment, to GL posting and reports, etc. in a continuous flow.
 9/16/2021: LSI and DOTH agreed that Playback will be conducted based on the DOTH business scenarios.

Requirement Management : Observation, Risk, Issue and Feedback/Mitigation	
Issue	Impact
<p>ORI ID: I-210722-01</p> <p>The Explorer Workshops are conducted from SAP point of view. Consultants are introducing and explaining generic functions and features of SAP products before completing a thorough analysis of DOTH requirements listed in RFP with DOTH project team members. Some of the functional examples or concepts from the Explorer Workshops were too generic or not directly related to DOTH processes and requirements. Therefore, DOTH project team members are having difficult time understanding SAP functionalities and connecting SAP functionalities to DOTH processes and requirements.</p>	
Feedback/Mitigation/Updates	
<p>It is recommended that LSI hold additional sessions and/or utilize the remaining Explore Workshops to review and confirm the DOTH business terminologies, processes, and requirements to effectively communicate with DOTH and to propose DOTH specific solutions.</p> <p>7/31/2021: More DOTH requirements have been reviewed and discussed during the Explore workshops. However, DOTH project team members are still having difficulty understanding and connecting SAP functions and features to DOTH requirements.</p> <p>9/2/2021: There were improvements, but many instances are observed where the DOTH team members were having difficult time understanding the workshops.</p> <p>9/30/2021: There were continuous improvements, but there are some areas where DOTH team members were having difficult time understanding the workshops.</p>	

D. Subject Category: External Impact Management

External Impact Management : Observation, Risk, Issue and Feedback/Mitigation	
Risk	Impact
<p>ORI ID: R-210812-01</p> <p>DOTH FMS is required to be compatible with DAGS's future statewide financial system. A meeting with DAGS was held on 8/12/2021 and DOTH and DAGS discussed the new UCOA. However, the new UCOA is still under development at DAGS and the incomplete UCOA at DAGS could cause DOTH some rework after the new statewide financial system goes live. The implementation project for the statewide financial management system has not started yet and Go-Live date has not been determined either.</p>	
Feedback/Mitigation/Updates	
<p>It is recommended that additional meetings are scheduled for further discussion and clarification of the new UCOA including the latest UCOA contents, changes, updates, and confirm a crosswalk between the FAMIS account codes and the new UCOA.</p> <p>9/16/2021: No additional meetings with DAGS were scheduled.</p>	

External Impact Management : Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210708-02

Feasibility of Inbound and outbound FAMIS interfaces need to be discussed with and confirmed by DAGS.

Feedback/Mitigation/Updates

It is recommended that DOTH and LSI hold a meeting with DAGS to find out if DAGS allows DOTH to interface files to FAMIS (DOTH Outbound Interface) and DAGS can interface files to DOTH (DOTH Inbound Interface).

9/2/2021: No meetings or discussions were held.

9/16/2021: No meetings or discussions were held.

9/20/2021: A meeting with ETS was held and found out that GL Interface is not currently available in FAMIS.

E. Subject Category: Resource Management

Resource Management: Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210804-01

Budget and Planning module in Wave 2 is schedule to go live in 8/1/2022 one month after Wave I Go-Live. However, a consultant for Budget and Planning (SBP) module has not participated in the O&M and CIP budget sessions in the Explore Phase.

Feedback/Mitigation/Updates

LSI may consider a Budget and Planning (SBP) consultant participate in O&M and CIP budget As-Is, To-Be and Requirements Analysis sessions in the current Wave I Explore Phase instead of waiting for the scheduled Wave II explore phase. This may minimize duplicated effort for both LSI and DOTH, prevent possible rework of solution design and configuration, and assist budget preparation and execution to have seamless integration.

9/30/2021: LSI Project Manager stated that the Go-Live dates of Wave I and Wave II were set based on the DOTH budget preparation cycle and the different activities between SBP and FM.

Resource Management: Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-210826-01

According to LSI responses to the requirements of Budget Preparation and Budget execution, Budget and Planning (SBP) module was proposed. However, solution design is developed in Fund Management module because SBP will not be available when Wave I goes live on 7/1/2022. The SBP is scheduled to go live on 8/1/2022, one month after the Wave I Go-Live date.

Feedback/Mitigation/Updates

It's recommended that LSI provide clear direction and roadmap for how FM will be used instead of SBP during the transition period between Wave I Go-Live and Wave II Go-Live.

O-210610-01	Observation	M210610-1	6/10/2021	Schedule Management	N/A	Explore Workshop Schedule	The Explore As-Is on-site workshops are scheduled for three hours each to cover one or two business areas. These sessions might not be enough time for thorough review and discussion. No on-site or off-site sessions are scheduled for Thursday afternoons and Fridays even though DOTH staff is available and contractors are expected to be available for work during DOTH business hours.	LSI	Closed	N/A	N/A	LSI and DOTH should facilitate and run workshops effectively to cover all the processes with sufficient details within the allotted time. O-210610-02	Observation	M210610-1	6/10/2021	Schedule Management	N/A	Start Date of Explore Workshop	The Explore Workshop that includes As-Is, To-Be, Requirements Analysis are scheduled to start on 6/21/2021. June is the last month of a Fiscal Year and it is the busiest month of the year and last couple weeks of June are the busiest weeks of the year. Ideally, June should have been avoided for DOTH time consuming activities. If these activities had to be scheduled in June, it could have at least started in the first week of June when SMEs were less busier than latter part of June. It was observed that DOTH staff was not able to fully focus on the Explore Workshop due to legislative deadline that DOTH had to meet for the fiscal year end.	LSI	Closed	N/A	N/A	PMO should check and monitor project scheduling where DOTH personnel are required to ensure that disruption to DOTH's daily task is minimized. O-210804-01	Observation	M210805-1	8/4/2021	Resource Management	BD	Participation of Budget and Planning Consultant	Budget and Planning module in Wave 2 is schedule to go live in 8/1/2022 one month after Wave I Go-Live. However, a consultant for Budget and Planning (SBP) module has not participated in the O&M and CIP budget sessions in the Explore Phase.	DOH/LSI	In Progress	N/A	N/A	LSI may consider a Budget and Planning (SBP) consultant participate in O&M and CIP budget As-Is, To-Be and Requirements Analysis sessions in the current Wave I Explore Phase instead of waiting for the scheduled Wave II explore phase. Because the go-live dates are only one month apart, it may be suggested that LSI and DOH revisit the schedule to coordinate a simultaneous go-live. 9/30/2021: LSI Project Manager stated that the Go-Live dates of Wave I and Wave II were set based on the DOH budget preparation cycle and the different activities between SBP and FM.	9/30/2021
